Project Milestone 2

Criteria	Details
Team #	204-1
Team Name	#1
Team Members	Milo Boyer, Jacob Smith, Jacob Kohav, Kody Quintana, Ailish Skinner, Noah Svensson
Project Features List	Features: 1. **Register a Company** A "login" page that will let you register your company and allow employees/employers to access the quiz. 2. **Register Employee** Similar to Register a Company, however, it will allow the employees to be able to sign up and choose the employer to store and access the employee data 3. **Slide/Embedded Video** Will have the tutorial sequence that you can click through until you complete it and get to the quiz. (Do you need to be registered for this?) 4. **Quiz on Content** A standard quiz page on the material of the slides. (Could mention the formatting of it? Like is it gonna be 1 question per page or a scroll thing) Only accessible if you are registered 5. **Saving Place in Slideshow** Captures where the user was last on within the slideshow and be able to access the point they left off at. 6. **Employee Readiness Rep** Lists all employees (only viewed from the HR portal) that belong to an organization and then shows whether they have completed the training or not.

Requirements	Feature Requirements:
	1. **Register a Company**
	   a. Functional Requirements: Contain Company Based Data.
	   b. Non-Functional Requirements: Allow only authorized users to get access to company-based data.
	2. **Register Employee**

	a. Functional Requirements: Store Employee data within a company's database.
	b. Non-Functional Requirements: Allow access to employee's restricted data on the site.
	3. Slide/Embedded Video
	a. Functional Requirements: Provide information from approved content by the owner/distributor/company.
	b. Non-Functional Requirements: Provides educational information in an easy to digest format and loads embedded content without issues in a timely manner.
	4. Quiz on Content
	a. Functional Requirements: Provide the user with a quiz that will be used to assess their proficiency with the content and the result is stored for access by the company.
	b. Non-Functional Requirements: Quiz only accessible by registered employees and provides them with an instant result after they finish.
	5. Saving Place in Slideshow
	a. Functional Requirements: Keeps track of the user's place in the slide show.
	b. Non-Functional Requirements: After a successful page load, the application will send an additional message to the server notifying that the user is on the page.
	6. Employee Readiness Rep
	a. Functional Requirements: Stores information in the company database about the readiness of an employee.
	b. Non-Functional Requirements: Presents to the employee if they have been deemed ready and provides a certificate.
